THE WEIGHT THROW TROPHY

This trophy was presented to the Hammer Circle in 2006 by Ian Tempest for the longest outright weight throw of the Reunion.

In 2014 the original Trophy suffered a mishap and lost one of its delicate handles. Ian immediately organised a new and robust replacement in time for the Reunion. The old Trophy was far too good to throw away and although a female won the first ever Hammer Circle weight competition in 2005 it was recognised that the younger males now dominate this very popular event in terms of distance. It was agreed to award the old trophy (without handles) to the Ladies as an annual award to recognise their participation in this event.

From 2014 this award goes to the **longest male weight throw of the Reunion**
